A Bill for the Free Coinage of Gold and Silver.

Silcott Indicted by the Grand Jury for Grand Larceny and Forgery.

The Round River Indian Reservation to Be Reduced.

The Provisions of Senator Cullom's Postal Telegraph Bill.

Special to The Tribune by the Western Associated Press.

AN IMMENSE ENTERPRISE.

n Which James G. Blaine May Be Interested.

RICHMOND, Va., December 20.—A measure of gigantic scope was introduced in the lower House of the Legislature. It was a bill to incorporate the Columbia Railway and Navigation Company. Among the incorporators is H. C. Parsons, an intimate friend and syndicate partner of James G. Blaine. The bill provides that the company shall have the power to build railroads, steamships, occupy and operate wharves, canals, ship yards, docks, basins, elevators, transfers, lighters, steam tugs, mills, furnaces, own and operate mines, and it shall also have the right to acquire and hold stocks and bonds of any company chartered by any of the Republics of South America, etc. The capital stock of the company is to be not less than $1,000,000, nor more than $100,000,000, and the principal office to be located in Richmond. This is understood to be a great Pan-American enterprise.

AT WASHINGTON.

The Round Valley Indian Reservation to Be Reduced.

WASHINGTON, December 20.—In the Senate this morning Senator Edmunds, in presenting a petition for the extension of time for the making of pension applications, remarked that it was evidently one of the printed petitions sent around by persons engaged in getting them up. If genuine, as he presumed it was, it was deserving of such consideration as it was entitled to.

A communication was presented from the President, transmitting one from the Secretary of the Interior, with a draft of a bill for the reduction of the Round Valley Indian Reservation in California, and inviting the early and careful consideration of Congress to the subject. Referred to the Committee on Indian Affairs.

Among the bills introduced and referred to committees were the following: Cullom, providing for a limited postal telegraph service; by Reagan, for the free coinage of both gold and silver, the issue of certificates to serve as money, and the retirement of United States and national bank notes of small denominations.

Morgan called up the joint resolution recognizing the United States of Brazil as a foreign State, and spoke at length on the subject.

The grand jury today indicted C. E. Silcott, the late cashier of the office of Sergeant-at-Arms of the House of Representatives, for grand larceny and forgery.

The President has approved the joint resolution to extend the time of service of the delegates of the United States to the International Marine Convention.

BEAUTIFUL AND ACCOMPLISHED

But She Became Despondent and Committed Suicide.

LOS ANGELES, December 20.—Lucy Weiler, the 16 year old daughter of Professor Richard Weiler, suicided this morning by swallowing an ounce and a half of chloroform. Her father is French, and was once one of the editors of the Paris *Le Temps* and quite wealthy. He lost his fortune and came to this city where he lost still more, and he was trying to live by language teaching. The girl was so despondent over their reduction from wealth to poverty that she took her life. She was beautiful and highly educated.

NOT A FALSE RETURN.

A Jury Decides that Means and Decamp are Not Guilty.

CINCINNATI, December 20.—This morning, after a two weeks' trial, the case of the Government against William Means and John R. Decamp of the Metropolitan National Bank was concluded. The jury after being out half an hour returned a verdict of not guilty.

RAGING RIVERS.

Floods in the Colusa Basin and Around Sacramento.

Colonel Mendell and Engineer Manson Inspecting the Break at Payne's—The Danger.

WOODLAND, December 20.—Indications point to another flood.

It has been raining since Monday last in the northern part of the valley.

The storm is said to extend far into the mountains, where the snow is melting at a furious rate and tumbling down into the valley, turning creeks into rivers, and finally joining forces with the formidable Sacramento.

A gentleman who passed Colusa junction last evening said this morning that the water was pouring in torrents from the direction of the mountains, across the railroad, and into what is called the Colusa trough.

This basin backs the town itself on the west, and should it continue to rise at the rate it did yesterday, the Colusaites will be cut off from rail communication, thus being compelled to depend upon the occasional steamboats that ply between there and Sacramento.

Things are in a fearful state on the Sutter county side of the river.

There from Butte City south everything is under water, with no present prospect of a subsidence of the flood.

Colonel Mendell of the engineering corps and Colonel Marsden Manson came up on last evening's train from San Francisco, and are in Sacramento this morning.

Colonel Manson will accompany Colonel Mendell down the river this morning. They will start in a little steamer at 10 o'clock, stopping at the Payne break and other points of danger along the river. Colonel Manson did not join in the apprehension that is entertained by Sacramentans that the river is likely to change its course.

He said: "In the first place the break is too wide to lead to such a result, and then there are topographical reasons why the river will naturally continue in its old course."

In speaking of the effect of the present heavy rains, Colonel Manson said that the great danger would be below Sacramento.

"It is a case," he said, "of a new enemy invading a country before the old one is put to rout.

"The city of Sacramento I consider to be comparatively safe. The only danger that could reach there would come from an overflow south of the city, between there and Sutterville.

"The water might then be crowded over the south levee, coming in at the back door as it were.

ANOTHER BAR.

Improvement of Twelfth Street Dam Again Blocked.

Three ordinances have been introduced into the Council fixing the grade of the Twelfth street dam. Two were found to be defective and were not passed. The third one was complete. It fixed the grade and declared the street a public highway. In order to repair the roadway this grade must be established by ordinance. The ordinance was sent to the Mayor, and yesterday, after 5 o'clock, Mayor Glascock returned the ordinance without the approval. The message gives the following reasons for the veto: "My reasons are: The ordinance is apparently an effort on the part of the city to dedicate for street purposes property in which it possesses an easement—not a fee. Dedication to be complete must consist of an offer and acceptance. An offer on the part of the owner that certain lands may be appropriated for certain public purposes and an acceptance thereof, evidenced either by uses by the public for said purposes, or by some formal act on the part of the proper authorities. The city does not hold the title to the land constituting the dam. It has simply the right to use for street purposes, based upon the consent of the original owners, in the construction of the same for dam and road purposes. In the present case it can declare the dam to be a public street or highway, and can establish the width thereof to the full extent of its dedication by the owners thereof, but it cannot dedicate what it does not own. To hold that the word dedicate, as used in the ordinance, means an acceptance or establishment of the dam as a street or highway would, in my judgment, be a strained construction of a word having a legal meaning well defined, and inconsistent with the definitions of the word acceptance and establishment. I am of the opinion that the ordinance is inoperative for any legal purpose.

CRUEL TO HIS CHILDREN.

Secretary Bennett Investigates the Case of Maria Nobther.

Secretary Bennett, representing the Society for the Prevention of Cruelty to Children, called at the county jail this morning for the purpose of investigating the case of little Maria Nobther, the eight year old child who was afraid to go home for fear her father would beat her for being a little late in returning from school, and who chose to remain a night within the prison walls rather than meet a cruel father. Mr. Bennett visited the father's house on First street and found it in a dreadful condition. Nobther is not working at present and spends most of his time fishing. There were two babies at the house who seemed to have had little care. Mr. Bennett says he will consult the society and will probably apply for letters of guardianship over the children. From what Bennett could learn the father has utterly failed to treat his little ones in a kind manner.

DAM

Mr. Camron Does Not Believe in Hunting for Technicalties.

President Camron of the City Council is now Mayor of Oakland, Mayor Glascock being out of the city until Monday. He was asked this morning what the Council would do about the veto of the ordinance declaring the Twelfth street dam a street.

"It seems to me that I would not be continually straining on technicalities, but if it was for the interest of the city, I would be for the city every pop. If I had left its approval until now, I know what the result would have been. I have not looked the matter up but I will do so, and if there is any way for making that a street it will be done."

WANTS A DIVORCE.

Dr. J. M. Young Accuses Dainty Della of Infidelity.

Dr. J. M. Young has become tired of being tied to a wife who is living with another man, and today he commenced suit in the Superior Court to secure a divorce from Delaphene Young on the ground of infidelity, and making Joseph A. Wilson a codefendant. The complaint charges that the fair but fickle Della is now living with the drummer in San Francisco. The story of Dr. Young's matrimonial difficulties is still fresh to the readers of THE TRIBUNE. It will be remembered that Dr. Young secured a divorce from his wife and married Della, the contract wife of J. A. Wilson, a drummer. The latter was in the country at the time, and when he heard of the marriage he hastened back to this city and again laid siege on Mrs. Young. He won her back, and after a few days of married life she jilted Dr. Young and returned to her first love. That's why Dr. Young wants a divorce. The physician states that since his recent troubles his practice has increased. He says that some day he will tell the secret why his wife left him so suddenly.

A COWARD BLOW.

Tommy Warren Knocks Out Mrs. John H. Church Jr.

The Amenities of a Home on the San Leandro Road—A Fraternal Meeting in Jail.

There was fun at the White House on the San Leandro road last night. Tommy Warren, the pugilist, was enjoying himself, and added another victory to his already long list of knock outs. Warren hired a carriage and took a ride. He stopped for a short time at the saloon kept by Mrs. John H. Church Jr. While there he got into a dispute concerning some money. Warren claimed that one of the girls in the house had something owned by him. Mrs. Church inquired of the girl if such was the fact, and the latter stated that Warren told what was untrue. Mrs. Church informed Warren that he dallied with the truth and thereupon the gallant pugilist struck her a blow back of the ear, which knocked her out. An officer was summoned and Warren was arrested on a charge of battery. He did not arrive at the county jail, however, until 3 o'clock this morning. Warren and John Church Jr. are old friends, and so when Tommy arrived at the jail young Church extended to him his hospitality. They talked and laughed together until daybreak, when the pugilist gave bonds and was released. It was not until after the fighter went away that Church discovered he had been entertaining the man who had knocked out his wife.

A WHOLE FAMILY IN JAIL.

Alexander O'Donnell and Wife Accused of Larceny.

Alexander O'Donnell and wife were locked up in the county jail this morning on a charge of petty larceny. Mrs. O'Donnell has a little baby, and as she could not give bail she was forced to take the little innocent to prison with her. About a month ago Alexander McAdam was engaged in sowing some oats for Captain Ainsworth. The oats were of the finest quality, and during the night several sacks were left in the field. The next morning they were gone, and the laborers traced the missing oats to the house of O'Donnell. A short time after the coachman for Mr. Ainsworth missed a number of pieces of linen, which had been stolen from in front of his house. A search warrant was secured and O'Donnell's house was searched, and the missing oats and linen were found. A warrant was then secured for the arrest of O'Donnell and his wife, and being unable to secure bail the whole family went to jail.

MR. IRISH'S VIEWS.

His Opinion of the Camron Bond Ordinance.

THE APPROPRIATIONS TOO SMALL.

Both Measures Will Be Beaten if Submitted Separately—He Objects to Salt Water and Favors Better Pavements.

Colonel John P. Irish, President of the West Oakland Improvement Association, was asked by a TRIBUNE reporter for his opinion of the Camron bond ordinance last night.

"I do not think any one has a right to decide what ought to be decided at the ballot box," said Mr. Irish. "I am of the opinion that we need a great many other things more than we need an electric light plant. I believe that the greatest interest the town has in improvement is improving Lake Merritt and reclaiming the West Oakland marsh. The only objection I have with the bond ordinance is that the amount for buying and reclaiming the marsh is too small. The lowest offer our association was able to get under the most favorable circumstances for filling was at 20 cents per cubic yard and that was for the earth being excavated from the tidal canal. However, new contracts will probably be let this spring and the city will be able to get what earth they want from that source. The purchase of the marsh land and the filling we estimated under the most favorable circumstances at $196,000. And I should regard an appropriation of $200,000 as too small for that work; with this sum it will not be possible to park the land but merely to purchase and fill it, but then probably something will be left over with which the parking can be commenced. A park cannot be built in an instant, and therefore it would be a good idea to make suitable appropriations from year to year as will enable the work to go on. And I find from conversation with other citizens that all are in favor of the dredging and boulevarding of the lake, the parking of this waste land, and the construction of a broad boulevard between the two places as an improvement and a sanitary measure. In this Camron ordinance the sewer proposition seems to be abandoned entirely. We in this district are willing to stand our share of the expense of reconstructing the Main Lake sewer and others, provided we are not compelled to stand the expense of sewers in other parts of the city. I think Mr. Camron's idea of allowing each drainage district to repair and build its own sewers is a good one, and we will willingly give other parts of the city three dollars for every one dollar allowed us for improvements. There is a feeling of despair expressed by those who meet here at my house for different from that which reaches the public eye through the newspapers. Their children sicken and die, and still nothing is done for this section, and they are willing to make a great many sacrifices to get what improvements are absolutely necessary. I think $200,000 would make a very fair start. It would probably buy and efficiently fill in this marsh land west of Peralta street, and a like amount should be expended upon Lake Merritt. We feel just as much interested in the improvement of Lake Merritt as in the other sections of the city because it is the city's great flushing basin. We desire to have the lake deepened and the mud used in the construction of the boulevard.'

"We note on this side of the city that E. C. Sessions betrays a great lack of interest in anything in the way of improvements that we may require down here. In all the interviews that have been had with him for publication in the press he has shown an improper spirit. We think the best use to make of the marsh is to convert it into a park. If, according to Mr. Sessions' idea the park and lake propositions are submitted separately, both will be beaten. When they talk of submitting the two separately the people will have a chance, influenced by such men as Mr. Sessions, to vote the lake proposition up and our proposition down. If they are voted for separately, the entire vote of this section would be thrown against the Lake Merritt proposition, therefore we want them both submitted together as one plan for sanitary improvements, and if they are so submitted, both will have the unanimous support of the First, Second and Third wards. We take just as keen an interest in the improvement of other sections of the city, and we will generally applaud a like manifestation on the part of Mr. Sessions when he is next interviewed. We love our neighbors around Lake Merritt like ourselves, but not better than ourselves, and we think them animated by the same spirit.

"I am amazed at the estimated cost of the salt water plant. What the effect of getting our dust practically turned to salt will be I am unable to say. I am of the opinion that dust filled with sea salt will be unpleasant. We have a short water supply, and I suppose it would be a relief in that direction. It might be more economical, but I am not prepared to say what the effect would be of turning dust into salt. I remember years ago in the East that during a snow storm it used to be customary for the street car companies to sprinkle salt on the snow. I do not now remember for what purpose, but the Board of Health finally forbid it on the ground that it was injurious to the people or for some such reason. I should think as salt holds the moisture that it would keep the streets very damp. I am not prepared to say but what it has benefits that would counterbalance what I might say. I would infinitely prefer that the $107,000 which the pumping works would cost be put into smooth bituminous rock pavements that make no dust. If the streets were of that kind and could be swept it would be better, and the cost of sprinkling, which would be saved, could be figured as interest on the original expense of laying the pavement. I think the City Council ought to prevent the laying of any more macadam pavements by ordinance. Such material cannot be kept clean, and I believe the Council would get the applause of the entire city if it should fix a measure compelling bituminous pavements. There are several kinds of this pavement in asphaltum and bituminous rock. I remember one of them that met with great favor in the East. The pavement was laid in blocks of compressed asphaltum, on a solid foundation. A macadamized pavement cannot be swept because it tears up all the top dressing, and such a street won't last. Now, here in front of my house is a macadamized street and the mud is knee deep out there. McAdam, the man who invented this kind of roadways, intended it entirely for country roads, and that kind of road for city pavements is entirely out of place. It is used all over as a country road, especially in England, Germany, and France. It is cheap and effective, but it is entirely unsuited for city streets. In the country it is just the thing. The houses sit far back from the road and the dust does not interfere with them.

"The West Oakland Improvement Association will not meet again until there is something to do. We may meet and consider this bond matter when it is licked into shape. Councilman Hackett has informed me that we will all have a chance to go before the ordinance and judiciary committee of the City Council and express our views while the amounts are being considered. But I am satisfied now that $175,000 is entirely inadequate and will not do the work, hence it would not justify the beginning of it.

"We have fixed on $500 an acre as being the very lowest figure at which the land can be condemned, and it will require about 8000 yards of dirt to the acre to fill it, which, as I have said, can be had at 20 cents a cubic yard from the tidal canal excavation. Mr. Wilder has promised to put in a spur track on the marsh, and will undertake to handle all the dirt trains that can be run on the tracks. Do you know, we haven't a spear of grass west of Lafayette square in the way of a public square, and I tell you they are mighty attractive, and we want some of them down here."

THE DUKE OF THE AVE.

Howard Shaw Sold Whisky Without a License or Criminal Intent.

The Duke of San Pablo avenue, Howard Shaw, appeared before Police Judge Laidlaw this morning to plead to a charge of selling liquor without a license. He pleaded not guilty and the trial was held immediately. The act of selling liquor and the fact of having no license were admitted, but any criminal intent was denied. Shaw testified that his application for a permit to obtain a license was presented to the Council before his previous license expired; that the application is still under consideration by the Council; that he has fulfilled all the requirements of the Council, even to the removal of the partition separating from his main rooms a little room used by his porter for a bedroom, and that he expects his application to be granted at the next meeting of the Council. He also testified that members of the Council advised him to conduct his business until his application was either rejected or denied.

Judge Laidlaw took the case under advisement for one week, intending undoubtedly to await until the Council may act upon Shaw's application.

SICK TRAMPS.

One Goes Insane, and Another Dying in Jail.

Chris Beringer was arrested a few days ago by Constable Trefry and locked up in the county jail on a charge of vagrancy. Since the man has been in jail he has become insane. Every day when he receives his loaf of bread he plays ball with it in his cell, and then breaks it up into fine crumbs, and refuses to eat. He is a peculiar character, and affords much amusement for the criminals in the jail. Beringer will be examined before the Lunacy Commissioners.

Frank Compton, another tramp, was arrested a few days since sleeping in a box car. When brought to the jail he was nearly dead, and since his confinement he has not been able to leave his bed. This morning Dr. Legler made an examination of the poor fellow and found that he is suffering from heart disease. An order was made to send him to the county infirmary.

Her Debut.

Mrs. Alice Farrington of this city will make her debut as an actress at the New Oakland Theater on Monday night, the 30th inst., as Annie Smalley, in "Ranch 10." Mrs. Farrington is a younger sister of Marie Burroughs, a well known actress, whom she resembles very much. Mrs. Farrington has a strong leaning toward the tragic, but says it will be several years before she undertakes Shakespeare. She has a queenly form, and a mobile face with strong features, a good voice and pleasing manners, and the chances are that she will make a hit in her chosen profession.

HORSES RENEWED.

What is Done When they Get Stove Up.

Boston Herald.

Herdic horses wear out and become old and unfit for use, as well as everything else. There are different kinds of "herdic horses," however, and those owned by the Herdic Phaeton Company of Boston are, perhaps, as well kept as the horses of any corporation. The company owns 120 horses and seventy-two herdics, but, as all the herdics are not in use at once, it is so arranged that each driver shall use two horses during the day working each but five hours, and thus giving each beast nineteen hour's rest out of the twenty-four hours. The animals are good ones, and are purchased at about 6 years of age, at a cost of from $175 to $250. They are driven till they begin to "tip forward," or their feet are made tender by the city pavements, and are then supposed to be unfit for further service in the business.

They are then sold to farmers, from whom applications for horses are continually coming in, and bring probably as good a price as any second hand horses in the city. After a few months of country life they are practically as sound as when first purchased by the company. The average duration of a horse's service in the herdic business is about four years, although some have run for seven and eight years. Perhaps the company sells fifty or sixty horses a year. But all "herdic horses" are not so well cared for, especially some owned by outsiders who cannot afford to pay more than from $30 to $75 each for them, and are obliged to use them at all hours. These poor brutes are generally driven until all used up and are then only fit to be rendered into fertilizers.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Slave and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Osgood Bros., druggists.

A PARK CITY.

A Boulevard to be Built Around the City of Alameda.

The Progress of the Little Town on the Peninsula—A Perfect Sewer System.

The citizens of Alameda do not do things by halves, says the *Examiner* this morning. They have decided to improve their city, and it is safe to say that in a year hence its appearance will be so changed and improved as to surprise and bewilder even the residents themselves.

To the numerous improvements recently noticed in these columns, the new City Hall, the equipment of the fire department, the additional school facilities, and the purchase of the Jenney electric light plant is to be added a crowning feature, which is unique on this coast, and which will be a source of attraction to many visitors from San Francisco.

About two years ago the members of the Alameda Improvement Association, of which George H. Payne is President, and which numbers among its staunchest supporters such men as Judge James A. Waymire, F. K. Krauth, Frederick W. Dohrmann, T. G. Daniells, George C. Fabins, John C. Siegfried, Dr. McLane, Henry Michels and Columbus Bartlett, conceived the idea of supplying a long-felt want in the form of a park for the city of Alameda by purchasing a sufficient number of acres of land somewhere near the center of the peninsula.

But on canvassing the matter it was found to be impracticable, from the fact that such a park would be far too expensive, and that on account of its location only a limited number would be able to derive any benefits from its existence. In its place it was suggested to gird the city with a system of park like boulevards after the manner of European cities, which would be easily accessible from all parts, and thus offer the same advantages to every section. So many obstacles, however, did they encounter to their plans that it was deemed unwise to undertake the work until public opinion should warrant such a step. At length their efforts to educate the public mind so as to enable it to understand the desirability and the advantages of such a system of boulevard that would constitute one of the finest drives anywhere west of the Rocky mountains, are crowned with success, and it is understood that in the spring work will be begun and speedily pushed to completion.

Already all the principal property owners and the Pacific Improvement Company, representing the railroad interests, have signed, giving the right of way.

The boulevard starts on Clinton avenue at Christina street and runs down Clinton avenue to Park street; then down Park street to the bay, along the shore of the bay east to the Bay Farm Island bridge, thence along the edge of the bay north to Harrison avenue, on Harrison avenue along the line of the tidal canal and the shore of the San Antonio creek west to Main street, on which the narrow gauge railroad runs. On account of the many fine residences built all along the shores of the bay on the north side, it will be impossible at present to have the boulevard circle the city entirely; but it is intended in the course of a few years to build a seawall on this side as a bulkhead to prevent more land from being washed away by the action of the waves and to fill in with soil and sand and continue the boulevard, thus completing the circle.

TO BE PAVED WITH BITUMINOUS ROCK.

Wherever it is possible the boulevard will be 150 feet wide. On Clinton avenue, which is already built up, its width will be limited to sixty feet, and on Park street and Harrison avenue to eighty feet. It will be paved throughout its entire length with bituminous rock, and on each side it will be bordered with wide sidewalks paved with artificial stone. In the wider portions a row of ornamental trees will be planted along the center of the boulevard and on each side deciduous shade trees, such as mulberries, acacias, and poplars, will be set with palms and other tropical plants at regular intervals, thus making it one of the finest promenades anywhere in the country. The total length of this magnificent boulevard will be very nearly ten miles, and approachable, as it is, from Oakland by Park avenue, it will no doubt on holidays be the drive on which all the fashionable turnouts of Alameda county will be seen.

A PERFECT SEWER SYSTEM.

Professor Schussler of the Spring Valley Water Works has recently pronounced the sewer system of Alameda, without exception, the very best in the world. The topography of the city is specially favorable to this. Central avenue, which may be called its backbone, is twenty-nine feet above high tide, thus causing a fall on each side of fifteen feet in a quarter of a mile. At the head of every side sewer on Central avenue there is situated a flush tank that automatically dumps eighty gallons of water every six hours. These side sewers connect with the main sewers on Clinton avenue on the south and Blanding avenue on the north. The main sewer is laid on Clinton avenue and runs down Park street to Bay Island avenue; down Bay Island avenue to San Leandro bay, where the sewage empties into the current and is carried a mile from town. The main north sewer runs principally along Blanding avenue and along the marsh emptying into San Antonio creek. The incline on both sides from Central avenue is so great that all rain water is easily got rid by surface drainage.

One Fact

Is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases of affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

There is no one article in the line of medicines that gives so large a return for the money as a good porous strengthening plaster, such as Carter's Smart Weed and Belladonna Backache Plasters

RIDAY.... DECEMBER 20, 1889

Perhaps the Doctor Lied.

There is a good deal of unconscious umor of the grim sort about certain eath rate statistics for Los Angeles, ompiled with distinguished arith- etical ability by one Dr. Colbnen nd published in the local papers a ew days ago. From these tables we nd that the Los Angeles death rate n the year of the census of 1880 was 7.27, in the following year 19.83, and n 1882 18.57 per thousand—an aver- ge of nearly 18 per thousand. After 885, when the memories of the cen- us had grown dim and the local rithmetician began to get in his work n the population, figures began to vax on one side and dwindle on he other. Thus in 1886 the opulation had increased to 50,000 nd the death rate was 9.08. In 1887 hey added 10,000 to the population, nd the death rate stood at 11 per housand. In 1888 the population ook a heroic jump of 20,000 to 80,- 00, and the death rate appears as .05. Thus we find that a city of 0,000 inhabitants with no sewers is nore than twice as healthy as the ame city when it had but 11,000 nhabitants. As no sanitary im- provements of any sort have been nade since 1880 the hygienic de- uctions to be drawn from these igures are of the most astonishing ort. It is useless to spend money n sewers, and the more cesspools nd people there are in a given eighborhood the healthier it should e. Under the wholesome influence f cesspools and arithmetic the death ate should be reduced to zero by he end of the century, and the Los ngeleno will be immortal. But erhaps the doctor lied.

SENATOR STEWART points out a real efect in the civil service law as it is ow administered, and this is the se- recy with which everything is man- ged. The examinations are secret; he questions are not obtainable after he examinations are over; the mark- g is secret, and even the list of igibles arrived at by the star cham- er inquisition is not made public. It true that the President announced his message to Congress that the w requires the posting of the list of igibles in all postoffices, but the vil service commission does not ap- ar to have directed the postmasters comply with this law, and it is not ne. Of course this secrecy opens e door for all kinds of fraud and rtiality. Favorites can be informed advance of the questions to be pro- sed in any examination; favorites n be marked high and accepted, d the unfortunate, however compe- t, can be rejected. If it is desired pecial examination can be secretly ld to railroad a favorite into place.

THE returns of the taxable wealth the State by counties, as shown by e figures on the books of the State ntroller, give results in the fol- ving order: San Francisco, $291,- ,433; Los Angeles, $84,386,319; ameda, $71,896,182; Santa Clara, 2,112,662; San Joaquin, $38,702,696; esno, $35,387,178; Sacramento, ,460,174; Sonoma, $31,222,671. the other counties of the State under $30,000,000. Los Angeles t $9,270,767 by the segregation of ange county.

MUNICIPAL electric lighting is not vays an unqualified success. At rkeley the rains flooded the en- e room and put out the fires, and Alameda last Monday night cer- n irreverent citizens petitioned the stees to hang a kerosene lamp on e of the masts so that the night yfarer might not break his un- ppy nose against it in the dark. e petition was treated as a das- dly insult, and was promptly laid the table.

A VERY unusual wife is reported m Chicago. She is Mrs. Wilson ddingham, the wife of a cattle g millionaire, and the cause of the rangement which grew up between m is that he spent $385,000 on "a latial mansion" for her in West ven, Conn. This offended her ifty soul and she completely broke with her extravagant spouse in sequence.

THE Chinese joss house at Chico ke its moorings on Wednesday last k and started for Sacramento, but heathen pulling on a rope towed temple back to *terra firma*. What's good of a joss that can't take care imself and won't stay put.

THE subjoined heading from the Sacramento *Bee* is a little misleading:

THE CONFESSION OF A MURDERER.

ROBERT BONNER CHARMED WITH WHAT HE SAW IN CALIFORNIA.

This does not mean that Robert Bonner had confessed, but simply that the telegraph sometimes makes strange bedfellows.

THE Yolo county hog would be a dangerous fowl if he had wings. One of them treed three hunters last week and held them there for several hours until relief came. He ac- knowledges no lord and master, and has no hope or desire of a glorious resurrection in pork.

MRS. BOYSON of Hanford opened a wild goose shot by her son last week and found a silver plated corkscrew in its crop. Will any one say we don't want prohibition when the Demon Rum goes around the country feeding innocent geese on silver mounted corkscrews?

A TRACT of land has been bought in San Bernardino county for a colony of that strange religious sect, the Dunkards, who are so little known to the outside world that an intelligent proofreader once passed a description of one of these bodies as "a com- munity of 20,000 drunkards."

THERE is nothing like intercomital courtesy. The Colusa *Gazette* notifies the Butte county people that they will find the Chico bridge stranded on an island in the middle of the river near Princeton. The truant bridge is rather the worse for its voy- age.

THE Colusa farmers think it is rather rubbing it in on a sore place to ask them to pay taxes of an irri- gation district with water three feet deep in the backyard, which did not cost them a cent to get in, whatever it may cost to get out.

THE latest evidence of American enterprise is a plan to build a chute down the slopes of Mount Ranier and slide the ice from a huge glacier into the city of Tacoma. The ice is abso- lutely pure and practically inex- haustible.

RIVERSIDE has a new weekly called the *Phoenix*. Presumably the same old duck; but where are her ashes?

A Softer Seat in Oakland.

Exchange.

George A. Oakes, editor of the Haywards *Journal*, urges a plea for his town as the county seat of the new county, if ever Alameda county should be divided, and among the strong inducements for its selection says: "We have just the place for the county seat—a large plaza—that the town could lease gratis for the erection of county buildings. We are in for the court- house pennant, if the county is divided, and it will be a fight to a finish." To which the tally editor of the Irvington *Express* pleasantly responds: "We confess that we have not thought of Haywards before, in the light of a possible county seat, but we will say this much, that if ever the people of this section of the county come to regard the idea of county division favorably: *If a* new county is formed and *if* that new county does not conclude to go to Hay- wards and sit out on that plaza, so touch- ingly alluded to as just the place for a county seat, why, then the county will be real mean, that's all."

Mr. Abernethy's Brief Flight.

San Jose Independent.

A small explosion at the Northern gas well on Saturday last convinced several workmen that the natural product will ex- plode with force. Several men were en- gaged in working near the well when it became necessary to put a cap over the pipe. A large wooden box was used and W. A. Abernethy got on the box to weight it down. One of the bystanders wanted to test the gas and applied a match. The box was found to be loaded, and the explosion that followed threw Mr. Abernethy in the air, and he landed in soft mud a dozen feet from the well. He was uninjured, but did not enjoy the act.

A Ballad of Salad.

I cannot eat the red, red rose,
I cannot eat the white:
In vain the long laburnum glows,
Vain the camellia's waxen snows,
The lily's cream of light.

The lilac's clustered chalices
Proffer their bounty sweet
In vain! Though very good for bees,
Man, with unstinted yearning sees,
Admires, but cannot eat,

Give me the lettuce that has cool'd
Its heart in the rich earth,
Till every joyous leaf is school'd
To crispy crinkled mirth.

Give me the mustard and the cress,
Whose glistening stalklets stand
As silver white as nymphs by night
Upon the moonlit strand;

The winking radish, round and red,
That like a ruby shines:
And the faint blessing, onion shed,
Whene'er Lucullus dines.

The wayward endives curling head,
Cool cucumber sliced small,
And let the imperial beet root spread
Her purple over all.

Though shrinking poets still prefer
The common floral fashions,
With buds and blossoms hymn they Her,
These vegetable loves would stir
A flint heart's mineral passions!

Bleached Hair no Longer the Rage.

New York Sun.

The rage for bleached hair, accord- ing to experts, has entirely passed away. It was a species of dementia which has always been difficult to understand, for if there ever was an unpleasant thing to look at in the world it was a head of straw color, lusterless, white, and yellow hair such as women affected here for a time. Its disappearance will be re- garded with unmixed satisfaction by mankind in general and the few women who are gifted with a natur- ally blonde hair will achieve a pleas- ant ascendency. The new tint is of a very dark red, and is said that the fashion can be traced back to two sisters who posed as models for a number of French painters of nude subjects. Both of the girls had red hair and it found its way into the salon, both of which made some talk. Then one or two of the much gossiped about women in Paris dyed their hair red, and the whole of the civil- ized world has begun slowly to troop after them. It is a curious fact that bleached hair had about the same beginning.

Its Capacity to be Doubled.

The beet sugar factory at Alvarado is to be enlarged in the spring and its capacity doubled.

BERKELEY.

The Temperance People Will Push Their Side.

Town Marshal Chappie has built a culvert at the intersection of Allston way and Oxford street.

A large number of subscriptions have been received to the Locke Richard- son recitals of Shakespeare.

Andy Moore and Julius Meyer were arrested today for selling liquor within one mile of the university. Their trials have not yet been set.

Cordinices creek is as near a raging torrent as a small mountain stream can be. It has already overflowed its banks in North Berkeley.

Captain Boswell states that the new Contra Costa county road is in excel- lent condition, notwithstanding the amount of rain that has fallen.

Mrs. Captain Thomas has returned to her home in the suburbs of this town after spending a few weeks in San Francisco at the Palace Hotel.

A number of Berkeley people re- ceived invitations to attend the recep- tion given today on board the steam- ship China. Captain Seabury of this town is the captain of the ship.

Professor Galey of the University of California will address the Sunday school of the Congregational Church next Sunday evening. There will, therefore, be no vesper service on that evening.

The case of the People vs. H. N. Marquand for criminal libel was con- tinued to be set last week at the request of District Attorney Reed. The date previously set for the trial was Decem- ber 13th.

The Town Trustees have given notice that bids will be received for doing the town printing during the coming year. There is no money in the job, but nev- ertheless a grand squabble is antici- pated between the two papers for the work.

William T. Lingard is reported to hold the ticket drawing the capital prize in the last drawing of the Louisi- ana lottery. Berkeley is a specially fortunate place. About four years ago Simon Fischel drew the capital prize.

Yesterday's rain loosened a number of the ties along the local road between North Berkeley and Dwight way, and the trains bump along like bobtail cars over cobble stones. The section hands are repairing the damage as fast as possible.

It is reported that if John Casey is convicted on the 27th inst. for keeping his saloon open after midnight he will appeal on the ground that the ordi- nance is worthless. The ordinance does not state at what time saloons shall open, but simply orders them to close at 12 P. M.

There are several holes in the streets of this town which the Marshal should be instructed to fill up. Some unlucky person will drive into one of these pit- falls, notwithstanding the brilliancy of our electric lights, as the holes are filled with water and will deceive the best driver in the night.

The anti-saloon people will start the ball rolling very soon. One prominent citizen interested in the matter stated to the correspondent of THE TRIBUNE yesterday afternoon that he was well aware that all of the saloon keepers had not closed in reality and that the temperance people did not intend to let the matter drop, now that the Town Trustees had rendered a decision favor- able to their side.

The Western Union Telegraph Com- pany have obtained permission from the Town Trustees to erect poles in Berkeley, and in the course of a few weeks a line will be in full running order. It is reported that Sterling B. Nurse, formerly bookkeeper for the Alameda Water Company will have charge of the East Berkeley branch telegraph office. He is now in a West- ern Union office in Sacramento, pre- paring himself fully for the position. He has been making a careful study of telegraphy for the past year and a half, and had a private line in this town.

West Berkeley.

Conductor Compton was held up by footpads late last evening while going home. He reached the corner of Fifth and Delaware streets when a tall man, with his hat drawn down over his face, stepped out from behind a tree and, placing the muzzle of a revolver close to the conductor's face, demanded his money or his life. Mr. Compton had his lantern in his hand and immedi- ately swung it around, bringing it down with tremendous force on the road agent's head. This somewhat sur- prised him, and he ran across the street. After getting about 100 feet away, the would-be robber turned and fired one shot at the conductor, but without doing any damage. Mr. Compton was unarmed or he might have made it interesting for the footpad, as he has the reputation of shooting exceedingly well with the revolver.

Emoryville.

The Judson Iron Works and the Michigan Furniture Company will close down on Christmas Day, much to the satisfaction of the employees at those establishments.

Mrs. Thompson is slowly recovering from her late illness.

Golden Gate.

The Club of '88 will give a grand en- tertainment tomorrow evening in Klinkner Hall. This entertainment will be a celebration of Christmas, and will be an invitation affair.

Several cellars are already full of water. Colonel Watkins has three tons of coal in his cellar, but bemoans the fact that it is covered with a foot of water.

WHY COUGH,

WHEN a few doses of **Ayer's Cherry Pectoral** will relieve you? Try it. Keep it in the house. You are liable to have a cough at any time, and no other remedy is so effective as this world-renowned preparation. No household with young children should be without it. Scores of lives are saved every year by its timely use.

Amanda B. Jenner, Northampton, Mass., writes: "Common gratitude impels me to acknowledge the great benefits I have derived for my children from the use of Ayer's most excellent Cherry Pectoral. I had lost two dear children from croup and consumption, and had the greatest fear of losing my only remaining daughter and son, as they were delicate. Happily, I find that by giving them Ayer's Cherry Pectoral, on the first symptoms of throat or lung trouble, they are relieved from danger, and are becoming robust, healthy children."

"In the winter of 1885 I took a bad cold which, in spite of every known remedy, grew worse, so that the family physician considered me incurable, supposing me to be in consumption. As a last resort I tried Ayer's Cherry Pectoral, and, in a short time, the cure was complete. Since then I have never been without this medicine. I am fifty years of age, weigh over 180 pounds, and attribute my good health to the use of Ayer's Cherry Pectoral."—G. W. Youker, Salem, N. J.

"Last winter I contracted a severe cold, which by repeated exposure, became quite obstinate. I was much troubled with hoarseness and bronchial irritation. After trying various medicines, without relief, I at last purchased a bottle of Ayer's Cherry Pectoral. On taking this medicine, my cough ceased almost immediately, and I have been well ever since."—Rev. Thos. B. Russell, Secretary Holston Conference and P. E. of the Greenville District, M. E. C., Jonesboro, Tenn.

Eight years ago a cancer came on my lower lip. It took off my under lip from one side to the other, and down to my chin. I had it treated by burning, and I got so weak that I did not think that I could stand it much longer. After much suffering I discarded all other treatment, and began taking Swift's Specific, and the cancer soon began to heal, and in a short time it was completely healed and I was entirely well. It is now over three years since I got well, and there has been no sign of any return of the disease. I know it was cancer and I know it was cured alone by S. S. S.

HOT WATER.

A Resolution Concerning Oakland Water.

THE CITY COUNCIL TALKS ABOUT IT.

Mr. Hackett Condemns the Water Roundly — The City Attorney Scored—Other Business.

An adjourned meeting of the City Council was held last evening. Messrs. Wakefield and McAvoy being absent. A resolution by Mr. Camron, "That the Superintendent of Streets be and is hereby ordered to immediately repair the waterways on the west line of Telegraph avenue at the junction of Thirty-fourth street, so as to prevent the water from Telegraph avenue running westerly along Thirty-fourth street," was unanimously adopted.

Councilman Macdonald introduced the following resolutions, which were passed without discussion:

Resolved, That the City Engineer be and is hereby directed to furnish this Council with the data necessary to establish the best possible official grades on Twenty-third street, between the east line of Webster street and the east line of Waverly street; on Valdez street, between the north line of Twenty-third street and the south line of Twenty-fourth street, and on Waverly street, from the north line of Twenty-third street to the south line of Twenty-fourth street, and on Bay place, from the east line of Broadway to Oakland avenue.

WHEREAS, In the past discussions have come up relating to the quantities that contractors have bid upon, and

WHEREAS, In order that all parties who may be desirous of bidding upon street work shall know before preparing their proposals what the quantities are; therefore, be it

Resolved, That the City Engineer is hereby instructed to file with the City Clerk within three days after the adoption of the resolution ordering the work and calling for sealed proposals, all the necessary data that is required by contractors before bidding upon work, showing the number of square feet, etc., for grading, curbing, paving, cross walking, etc., and also to file with said clerk profiles showing the length and depth of each sewer to be constructed and the location and depth of each manhole, lamphole and "Y" branch, measurements to be shown in feet and inches, and be it further

Resolved, That the City Clerk shall keep for public inspection all of said papers filed.

That permission be, and is hereby granted Messrs. Burnett, Foster, Parker and Phelps to construct a sewer in the alley in block No. 10, East Oakland, from Twentieth avenue to the sewer in Nineteenth avenue, at their own expense, providing, however, that it be vitrified iron stone pipe, six inches in diameter, laid to the lines set by the City Engineer and the work done under [illegible] supervision and to the satisfaction [illegible] Superintendent of Streets.

[illegible] resolution was introduced by Macdonald that the Board of Public Works be, and they are hereby authorized to expend, not to exceed the sum of $500, in the repair of the city portion of the bridge crossing the Sausal creek on Hopkins street. This resolution was withdrawn.

That the Superintendent of Streets is hereby directed to make the following enlargements and extension of time upon the official contract on file with the Alameda Macadamizing Company, viz[illegible] Sixty days on said contracts for [illegible]adamizing Eleventh street from Broadway to Washington; sixty days on Tenth avenue from East Nineteenth to East Twenty-first, and sixty days on Twenty-first, from Eighth to Tenth avenue.

A resolution by Mr. Hackett that the Superintendent of Streets be and is hereby directed to return to E. Cavanagh $20, the same having been deposited by him upon sewer permit No. 2018, bearing date of November 23, 1889, said permit having been lost by said petitioner. The Superintendent of Streets is directed to take his receipt for and $20 in lieu of said permit No. 2018. Lost.

Upon the report of the street committee the proposal of E. J. Bates for grading Franklin street, from Durant to Walnut streets, was rejected.

Permission was granted M. V. Cardoza et al., to lay sewer in the alley between East Twelfth and East Fourteenth streets, for a distance of 150 feet, to connect with the sewer at Nineteenth street.

A resolution of intention was passed ordering a sidewalk on both sides of Sixteenth street, from Market street to west line of San Pablo avenue.

Those who have already cement sidewalks are exempt from assessment on this score.

A resolution to grant the Alameda Macadamizing Company further time on their contract called forth a lively discussion between Messrs. Macdonald, Hackett and Evans.

Councilman Hackett thought that these contractors had sufficient time already, and was unwilling that they should continually have extensions.

Councilman Evans stated that if an extension was granted it would be far in the spring before the work was done.

The matter was finally adjusted by passing a resolution granting the Alameda Macadamizing Company the following extensions: Ninety days on contract for East Fifteenth street from Fourth avenue to Ninth avenue, and sixty days on contract for East Twenty-first street from Eighth to Tenth avenues.

The following resolution of intention was passed to print:

To sidewalk Filbert street, from Eighth to Tenth.

The following resolutions of intention were adopted:

That Thirty-fourth street, between Peralta street and San Pablo avenue, be sidewalked with bituminous rock five feet wide.

Center street, from B street to Emery tract, to be sewered.

Hannah street, from A to B, to be sidewalked with bituminous rock five feet wide.

Twenty-fourth street, between Webster and East, to be graded, curbed and macadamized.

Walton street, between Market and Grove streets, to be graded, curbed and macadamized.

The City Water.

A communication from the Board of Health calling the attention of the board to the unwholesomeness of the water furnished the citizens of Oakland, and asking that some measures be immediately taken to remedy the evil, and suggesting a resolution to that effect, was read.

The following resolution embodying the points of the communication was offered:

Resolved, That the Contra Costa Water Company be and it is hereby requested to proceed immediately to so improve the water furnished this city that it will, at all times, be comparatively free from impurities; and be it further

Resolved, That said Contra Costa Water Company be requested to report to this Council as soon as possible what me[illegible] they will adopt to purify the water, when they will begin such improvement for filtration, and at what time the people can expect to be furnished by said company through its mains in the city of Oakland with water pure and free from deleterious properties.

Mr. Kirk—That sounds like old Tim Barker.

Mr. Hackett jumped to his feet and said, "I am sick and tired of this thing. It is a shame and a scandal that the citizens of Oakland have to submit to such treatment, and they look upon this Council to do something in this matter. This water company is as 'close' as they are made—they will make no move. Why, they would skin a louse for his hide and tallow. Here we are, a city with all the resources to make us a great city, greater even than San Francisco, and the only thing that holds us back is the poor, miserable water service. It's a fact, and everybody knows it, that the water furnished to the people of this city is not fit to drink nor to wash your hands in nor to wash clothes. I don't care who got up this resolution. It's right."

Mr. Macdonald said he was the author.

Mr. Hackett—You're right, Mac. Count me in and get five votes, and I'll stay with you. We must force this water company to give us decent water if we can. There's nothing keeps the city back like the filthy water that is furnished to the people by the Contra Costa Water Company. For the past month it has been simply outrageous, and the man is away off his base who will get up and say that the water is fit to use. It is useless to try to persuade the people that such is the case. And there's no excuse for it. This water company have had things their own way in the past, and have done things as they pleased, or didn't do anything if they saw fit. Now they won't do anything unless they are compelled to, and this Council should compel them to purify the water. The reason the company don't do so is because they are too stingy—those two Pierces would skin a louse for its tallow—they'd suck the marrow out of a dead man's carcass if there was any money to be made in it—anything to make money! Old man Chabot was pretty decent; he would try to do something. Now I wouldn't say a word to injure the water company, but I'd like to have the casting vote to make them do their duty—their exact duty to the people. This Council ought to make the water company furnish pure water; if you do that you will have a great city here—nobody can tell how great. It ought to be the biggest city on the coast; we have got the location and the climate, and with a harbor [illegible] paved and good water [illegible] Oakland will go ahead of all the other cities of the coast. You make this water company act decently—we have made the whisky business quite decent—and you will do a big thing for Oakland.

Mr. Brosnahan stated he did not see why there should be much haste, in the matter as other councils had adopted the same plan, and signally failed.

Mr. Evans said that no city in the world could have clean water during this kind of weather. Last summer the company had introduced a new filtration system, and this was a decided improvement until the big storm. He would vote for the resolution if the reference to the price of the water were stricken out.

Mr. Macdonald said the resolution was not a cinch, but was intended to find out if the water company meant to do anything to purify the water.

Mr. Collins said that the company in the past had done as they pleased, but he believed they realized at last that they must do something to improve the quality of the water, and he believed they were trying to do something in that direction. At this time the company could not control the "rile" in the water, and to censure the company now for impure water would be virtually a censure of the Almighty. Last summer he had visited the lake and reported what he had seen to the Council. The constant ding-donging about impure water since then had come from one doctor in the Board of Health. However, the speaker said, the people should have the best water and at reasonable rates.

Mr. Kirk moved to refer to the Fire and Water Committee. Lost. Messrs. Earl, Collins, Brosnahan and Kirk voting aye.

The resolution was then adopted. Mr. Camron stated that he was informed that for $70,000 the company could construct the proper filters.

The Opening of Clay Street.

The adverse report of the Board of Works on the petition of J. L. Wetmore and others for the opening of Clay street came up.

In reference to the objection of the board that only one property owner within six blocks had signed the petition Mr. Macdonald said that as a matter of fact all the property owners on the street in that neighborhood favored the opening. The Board of Works' report might be accounted for by the fact that Mr. Playter owned property on the gore at Fourteenth street and Broadway, where a similar widening of the street was asked for.

Washington Street.

Mr. Camron pointed out that the petition did not conform to the requirements of the charter, and the matter went over to Monday night.

Macdonald introduced a resolution instructing the City Engineer to prepare special specifications for grading, concreting, paving with bituminous rock, curbing and cross-walking of Washington street, from the north line of Seventh street to the south line of Fourteenth street.

Mr. Hackett said that if specifications were wanted they should be general. Special resolutions were the bane of the city.

The resolution was referred back to the street committee.

The Council ordered the following street work done:

Chestnut street, from San Pablo avenue to Twenty-first street, graded and macadamized.

A catchbasin at the northwest corner of Ninth and Cypress streets.

Ordering an eight inch ironstone pipe sewer in Third street, from Chester to Henry streets.

A sewer in Twenty-eighth street, from Magnolia to Union streets.

To grade and macadamize Twenty-second street, between Market and Adeline streets.

Mr. Hackett protested that the Oakland Paving Company had already contracted for more work than they were able to do, the occasion of his protest being a bid of the company to remacadamize Wood street. It was bad policy to allow the companies to load up with work, and then have them coming for extensions of time continually. The bid was referred to the street committee.

Washington Bids Rejected.

Then bids from the Pacific Paving Company and from J. A. Fairchild to bituminize Washington street from Seventh to Fourteenth were opened. It appeared that the specifications had omitted to mention what proportions of cement and sand should be used in the concrete foundation, and the contractors had understood that the same amounts as were called for in the Eighth street job were to be followed and had bid according.

On motion of Mr. Hackett the bids were rejected. He objected to allowing the contractors to fix up their own specifications.

Proposals for street work were received from the following: Sewering of Thirteenth street from Webster and Franklin, from Ed Cavanagh, John Geary, P. Heverin and L. Kehoe; sewering Thirty-first street, from Market to West, from T. Stanton, L. Kehoe, P. Heverin, J. Geary and E. Cavanagh; sewering Twenty eighth street, from Market one-half to Myrtle, from J. Kellion and J. Geary; sewering Twenty-second street, from Sixteenth to East Twenty-second avenue, from L. Kehoe, J. Geary, E. Cavanagh and P. Heverin. Referred to Street Committee.

The liquor license bond of Schultz & Walkenhorst was approved.

The bonds of George H. Wright, P. J. Brophy and John L. Bromley, as commissioners in the matter of opening Magnolia street, were approved.

Superintendent Wall was requested to inform the City Council of the condition of all contracts existing at the present time, as to the dates when awarded and when they should be completed; also a statement of all extensions of time granted upon said contracts.

Replenishing the School Fund.

Mr. Earl moved to transfer $13,000 from the General fund to the School fund, to be replaced on the first transfer to the School fund from the State apportionment.

Mr. Evans did not see the necessity and did not think the action lawful.

Auditor Snow said that some $45,000 was available in the city treasury. The money might just as well be used to pay the teachers.

Mr. Hackett suggested that Christmas is coming, and these poor teachers should have their money.

Mr. Evans—Where's the City Attorney? He is not here. That man draws [illegible] for rendering services in behalf of the city. Does he do it? He does not do anything for the city, but is engaged all the time in private business. Mr. Johnson ought to be here tonight to answer questions of this character. No City Attorney in this State occupies a sinecure except the City Attorney of this city. He wants the City Clerk to serve every document upon him on a silver platter.

The resolution was adopted unanimously.

A Municipal Adviser.

Mr. Evans—I have had this resolution in my desk for five weeks, and I offer it now:

That a committee of three be appointed by the chair to confer with the Mayor relative to the procurement of a suitable legal adviser for the Council, with a view of endeavoring to extricate the legislative body of this city from the unfortunate position in which it finds itself now placed.

Mr. Macdonald hoped the resolution would not be adopted. He thought the Council was to blame for the [illegible] of the City Attorney. They had ignored his position.

Mr. Hackett—I move to hold over the resolution to the first meeting in January.

Mr. Evans—The City Attorney has put a long series of slights on this Council. On one occasion, when asked to give a written opinion to this Council, he sent back a report which was an insult of the grossest character. I can't think any other body in the State would tolerate such a report; neither would it tolerate the doings of such a City Attorney. He comes here when he thinks fit, and departs when he pleases. When asked for an opinion he always says he is not ready or has not read up. He never comes to a committee meeting. The sooner we are out of this dilemma the better for us. Affairs involving legal questions are coming up at almost every meeting. We have to jump at them and take our chances whether right or wrong. Some day we will take a leap in the dark and commit some great mistake. Who will be responsible for it? Not the man who is drawing a salary of $2400 a year from the city and attending to his private business. If this man has placed himself in opposition to this Council because we have criticised his past actions, and deservedly, we will bring him up with a round turn, and if he has so placed himself he will be a fit subject for impeachment."

Mr. Hackett thought that there was some truth in what Mr. Evans urged. He was not prejudiced in the matter but he thought they might have a better attorney and a better engineer.

Mr. Brosnahan moved to lay on the table. Lost. Evans, Hackett and Camron voting no.

Mr. Collins left the room then and the resolution was lost by one vote. Evans, Towle, Macdonald, Hackett and Camron voted for it.

Adjourned.

NO BETTER CHARITY

Than the Oakland Free Kindergarten—Exercises.

The holiday exercises and Christmas Festival of the Oakland Central Kindergarten were commenced today at 10 o'clock at the school on Third street and Broadway. The exercises were excellent and the little waifs were made happy by the gifts of many people. The singing and other exercises by the little ones show the excellent training given them by their teachers, who deserve great credit for their unfiring efforts to help the poor by taking care of the little ones, thus giving their parents a better chance to make their scanty living. Over 100 children, who, were it not for these young ladies, might be running about the street, are being cared for at this school, which is kept up by voluntary contributions. It is very much desired that all who can do so will help them out by making monthly contributions. All are cordially invited to attend the exercises tomorrow, beginning at 10 A. M.

NO DISCOUNT.

Salaries of Employes of the City to be Paid Before Christmas.

The City Council having ordered a transfer of money from the General fund to the School fund, all demands against the latter fund may be paid in cash by the City Treasurer. Warrants for salaries of teachers for the month of December will be ready for delivery on Monday next at noon, and all will be cashed upon presentation.

Salaries for December of employes of the city other than school teachers and janitors will be paid on Tuesday next.

Announcements.

A Christmas bazar will be conducted at the First Congregational Church this afternoon and evening.

A free social and sale of useful and fancy articles will be given by the ladies of the San Pablo Avenue Baptist Church at the residence of Mrs. Donahue, 465 Thirteenth street, this evening.

Excellent talent has been engaged for the literary and musical entertainment, farce and tableaux to be given by Enterprise Lodge, No. 27, Legion of the West, at Hamilton Hall this evening. The entertainment is for the benefit of the Young Men's Christian Association building fund.

An opening ball will be given at the Albany Hotel, corner Fifteenth street and Broadway, this evening.

No Cards.

The Oakland mail carriers are not a little vexed at an edict just issued from Washington which forbids their continuing the custom of giving Christmas or New Year's cards to the people on their routes. The cards have been always looked for with a great deal of pleasure, as they always contained much information relative to the arrival and departure of mails, the postal rates and postal laws, besides being a very attractive souvenir. The public should remember the overworked carriers during the holiday season, who are even denied the pleasures of giving a Christmas token by a relentless Government.

AN UNKIND SHEPHARD

A Tale of Cruelty Told by an Injured Wife.

Katie Shephard has been granted a divorce from John E. Shephard on the ground of extreme cruelty. The defendant failed to answer the charges made in the complaint and the testimony was taken before the Court Commissioner. Mrs. Shephard testified that when she was living in this city in 1887 her husband came home one night drunk and beat and abused her in such a manner that she was compelled to remain in bed for a period of two weeks before she recovered from her injuries. On many other occasions she related that he struck her in the face with his clenched fist and called her vile names. When he became tired of abusing her in this manner he placed a knife to her throat and announced that he was going to kill her. She did not resist, but the husband did not have the courage to carry out his threat. In order to aggravate and humiliate her Shephard used to deny the paternity of his children.

SPORTING GOSSIP.

Has Hardie Signed With the Boston Club?

It is stated that Lou Hardie, the great catcher and batter of the Oakland nine, has signed a contract to play with the Boston National League Club next season. Last night Hardie and Ganzel of the Boston Club were together in this city, and it is probable that Hardie has signed for the season. If this is rue Coughlan will likely follow suit.

Tom Brown, the left fielder of the Boston nine is to be married to-day. Brown formerly resided in this city.

There will be two fights at the Golden Gate Club this evening. The contests will be between Connelly and McCarthy and Mulholland and Griffin.

Wages Were Due.

ONE of the best remedies for a sore throat is to gargle the throat several times a day if practicable, with Pond's Extract, and on retiring to wrap the neck in a woolen bandage, saturated with Pond's Extract and cold water. If the swelling has not disappeared the next morning, continue the treatment for a day or two until successful.

Fire on Twelfth Street.

Yesterday afternoon at 5:30 o'clock ladies were in the Eastern Hair Store, No. 105 Twelfth street, between Broadway and Franklin, having their hair dressed and heads shampooed by Mrs. L. S. Siltechers. They were heard to say they could always find a fire on Twelfth street, as well as all the comforts of home to have any kind of hair work done, and never suffer from the cold blasts of December, which now chills the marrow in your bones.

A proposition is on foot among the business men and property owners on Washington street to change the name of that thoroughfare, the argument being, that the name should be more up with the times. The very latest in checks and stripes are always displayed on his counters weeks before others get them, and his prices are considered the very lowest.

This is the best place in the city to buy turkeys or meat for the holidays, and customers may be always sure of prompt attention and the very finest meats the market affords.

MILK WHEN PLACED IN SEALED jars, while warm and fresh from the cows, has the following advantages:

1.—IT IS MORE CLEANLY, not being exposed to blow-dust or dirt, or to the dripping wet hands of the driver.

2.—ITS QUALITY MAY BE SEEN AT A GLANCE—the cream and color is itself guaranty.

3.—IT WILL KEEP SWEET LONGER, because in transportation the bottles will not churn the milk; there can be no churning.

4.—THE FLAVOR IS BETTER, because it is void of the metallic flavor caused by the action of the temperature and churning of the milk in the tin cans.

BIBLICAL CHRONOLOGY.

A Useful Table Compiled by the Rev. E. S. Chapman, D. D.

For the Use of the Bible Correspondence School, to Be Preserved for Reference.

Rev. E. S. Chapman, D. D., of East Oakland some time ago prepared a chronological table for the members of the Bible Correspondence school, which is believed to be of sufficient value to justify its publication. It has been compiled with great care from the best authors. Cut it out and paste it in a book for preservation:

B. C. 606. Nabopolassar is king of Babylon. Nebuchadnezzar, his son and viceroy, defeats Pharo Necho, king of Egypt, and Jehoikim, king of Judah. ii Ch. 36:6-7. Daniel and his companions taken captive. Dan. 1:1. Beginning of seventy years' captivity. Jer. 25:12; 29:10.

604. Death of Nabopolassar and accession of Nebuchadnezzar.

603. Nebuchadnezzar's dream. Dan. 2.

598. Death of Jehoikim and accession of his son, Jehoiachin. ii Kings, 24:6. Jehoiachin and many other captives taken to Babylon. ii Kings, 24:10—17. Ezekiel (1:2) and Mordica (Es. 2:6) taken. Accession of Zedakiah, son of Josiah, as king of Judah. ii Kings, 24: 17.

589. Siege of Jerusalem by Nebuchadnezzar. ii Kings, 25:1.

588. Destruction of Jerusalem. ii Kings, 25:4. Capture and punishment of Zedakiah. ii Kings, 25:5-7. Second general deportation of captives.

561. Death of Nebuchadnezzar and accession of his son, Evil Merodach. Release of Jehoiachin, by Evil Merodach. ii Kings, 25:27.

559. Murder of Evil Merodach by his brother-in-law, Nerighssar, who succeeds to the throne of Babylon. This is probably the Rab-Mag of Jer. 39:3,13.

556. Death of Nerighssar and accession of his young son, Laboro-sarchod, who, after nine months' reign, was assassinated.

555. Accession of Nebonidus as king of Babylon, who raises his son Belshazzar to a share of the throne.

538. Nabonidus absent. Belshazzar, acting as king, sees handwriting on the wall. Dan. 5:5. Capture of Babylon by "Darius, the Median." Dan. 5:31. This is probably Cyaxares, son and successor of Astiages, king of Media. As viceroy of Cyrus, the conqueror of Babylon Darius was for two years king of that city.

537. Daniel made president of the princes. Dan. 6:1-2. Daniel cast into the lions' den. Visions of the four beasts. Dan. 7.

536. Death of Darius. Decree of Cyrus for the return of the Jews. Ezr. 1:2. Return to Jerusalem of 40,000 Jews, under Zerrubbabel. Ezra 2:64-65.

535. Foundation of Temple laid. Ezra 3: 10. Complaints of Cyrus. Ezra 4: 1-5. The work on the temple hindered.

529. Death of Cyrus and accession of his son, Cambyses—probably the Ahasuerus of Ezra 4: 6 (Dan. 11: 2.)

522. Death of Cambyses, and accession of Smerdis, a usurper. Dan. 11: 2. Probably the "Artaxerxes" of Ezra 4: 7. Work on temple suspended. Ezra 4: 24.

522. Accession of Darius Hystaspes (Dan. 11: 2), the "Darius, King of Persia," of Ezra 4: 5, 24, and descendant of a younger brother of Cyrus.

520. Encouraging prophecies of Haggai and Zachariah. Ezra 5:1. Hag. 2, Zech. 1. Work on temple resumed. Ezra 5:2. Search for decree of Cyrus. Ezra 6. Decree of Darius. Ezra 6.

516. Completion of temple. Ezra 6:15.

485. Death of Darius and accession of his son, Xerxes, (Dan. 11:2)—the Ahasuerus of Esther.

482. Divorce of Vashti. Esther 1:19.

478. Marriage of Esther. Esther 2:16.

473. Plot of Haman. Esther 3:7-8. Deliverance by Esther.

445. Visit of Nehemiah to Jerusalem. Neh. 2.

445. Repairs of walls of Jerusalem. Neh. 4.

434. Return of Nehemiah to Persia. Neh. 13.

420-10. Return of Nehemiah to Jerusalem (13:6) and reform resumed by him. Prophecy of Malachi, and close of the Old Testament canon. The dates of the last two events are uncertain.

DRUNKENNESS

(Or the Liquor Habit), Positively Cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific it becomes an utter impossibility for the liquor appetite to exist. 48 Page Book of particulars free. For sale by P. J. AFRAID OF THE DEVIL.

Strange Hallucination of a Sixteen Year Old Boy.

Manuel Baptiste, a boy 16 years of age, was before the Lunacy Commissioners this afternoon to be examined as to his sanity. He imagines that he is being pursued by the devil, and makes frantic efforts to get out of the "Old Nick's" way. While at home he ran away, thinking that he would hide so the devil could not find him. When approached by any one he fights like a tiger and believes that his friends are in league with Satan and want to catch him and give him to the proprietor of the hot regions. He was adjudged insane and ordered sent to the asylum.

ALAMEDA.

Gamblers Raided—The Masonic Temple.

The public schools closed this afternoon and will reopen January 6th.

A row occurred last evening among some Chinese gamblers over a game in a den on Railroad avenue, near Park street, police officer Schroeder arrested two of the fighters on a charge of disturbing the peace. There are several Chinese dens opposite the Park street station on the broad guage road and strangers are not apt to be favorably impressed with the town on viewing them. The residents of Alameda are earnestly hoping that the owner of the property on which the shanty stands will soon give notice to the occupants to move out.

The plans of Albert Man of Oakland have been accepted by the Masonic Building Association. Nothing will be done toward letting the contract until after the first of January.

Several of the merchants on Park street have decorated the sidewalk in front of their premises with evergreen trees.

Over 2,000 feet have been signed for the improvement of Clinton avenue and the petition asking the Trustees to order it to be graded and macadamized will soon be submitted.

An amateur telegraph club has been formed by the young people of East Oakland, and wires have been run between the homes of the different members of the club.

For several hours yesterday the Highland Park railroad was prevented from making regular trips on account of the large amount of water flowing down Twenty-third street.

Mr. Hughes has full charge of the office and diningroom, while Mr. Davies will still be the general manager, and will give the outside work his whole attention, having tendered his resignation as secretary of the California Board of Trade for that purpose.

HANDCUFFED IN JOKE,

But It Took a Locksmith to Release Him.

A good story is going the rounds in East Oakland about what befel a new member of a secret society in that section a few nights ago. The occasion was a banquet and entertainment given by the Gamma Eta Kappa Society, a High school organization, at which Will Price was initiated. The innocent candidate was ushered into the august presence of the high and mighty dignitaries and a solemn ceremony was carried out while the trembling Price securely handcuffed stood enveloped in a sombre cassock, thinking of gruesome ghosts and such uncanny things not human. When the ceremony was finally completed the suppressed laughter was turned to earnest when it was found that young Price was indeed a prisoner, the key to the handcuffs having broken in the lock. The unyielding steel was worked with until after midnight but with poor results, and it was decided to lead the handcuffed Price to a neighboring machinist, said to have been O. C. Kirk, who went with them to his shop. The locksmith was very dubious about the laws, and as he had only the word of the young young man's friends for their companion's predicament, a suspicion entered his mind that all was not right. Perhaps Price was an escaped prisoner. He accordingly refused to release the unfortunate victim of a practical joke unless an officer was present to witness the operation and give his opinion as to whether the victim was represented in the rogue's gallery. So the crowd filed out and were deployed as skirmishers to rustle up the solitary policeman that is known to infest East Oakland after nightfall. Along toward morning Officer Powers was sighted and the [illegible] bore him in triumph to the locksmith's shop. Matters were explained and young Price was liberated, [illegible] member of the Gamma Eta Kappa [illegible] and a suspicion [illegible] that Messrs. [illegible] to [illegible] the work.

HEALTH HINTS.

Some Suggestions Regarding The Treatment of Coughs And Colds.

A cold is usually the symptoms of some disease, the character of the cough denotes the nature of the disease. A cough should never be suppressed but the disease cured, then the cough will stop itself. The most common disease that causes coughing is a cold. When a person takes cold, many of the air cells of the lungs become obstructed with mucus, the coughing is an effort of nature to relieve the lungs and that is the first and most important thing to be done in treating a cold. The lungs should be relieved and the secretions opened, which is the best accomplished by giving Chamberlain's Cough Remedy. It is the only preparation in use that will cause the expulsion of mucus from the air cells of the lungs. It also renders the mucus less tenacious and easier to expectorate and opens the secretions, aiding nature in relieving the lungs and freeing the system of all morbid matter, effectually curing the cold. It acts in perfect harmony with nature and is the only preparation in common use that does. Nature's way is to open the secretions, render the mucus less tenacious and easier to expectorate and relieve the lungs, and that is precisely the effect of Chamberlain's Cough Remedy. You ask: "How do we know that is nature's way?" Because if your system is strong enough to stand the more, will in time relieve it of the cold without the aid of any medicine and that is just the way it goes about it, but many an "iron constitution" has been severely racked by leaving nature alone and unaided to do the work. No one can afford to neglect a cold, as catarrh and chronic bronchitis are caused by neglected colds.

He was found guilty, with a recommendation for mercy, and was sentenced to pay a fine of $30, with the usual alternative. Gaffney took the alternative, and will be tried on a charge of threats against life as soon as liberated.

Cackling Fowls.

The Merriams, who conduct a poultry store on Telegraph avenue, near the intersection with Broadway, were arrested for maintaining a nuisance, the cackling of the fowls and the odor from the birds annoying the boarders who live above the store. They have abated the nuisance, and this morning in the police court the cases were dismissed.

This great vegetable specific is the most valuable that medical research has succeeded in wresting from the secret depths of science. It is a surprisingly controlling power in case of cancer and tumors. It reduces glandular swellings, alleviates epilepsy, regulates the bowels, promotes digestion, tones the stomach, induces sleep, sustains against fatigue and expels scrofulous and all other blood derangements. JUBILEE JANE.

An Unprincipled Scheme to Send Her to the Insane Asylum to Reap the Benefit of Her Property.

Joselyn Cramer had his sister Jane, better known as "Jubilee Jane" on account of her continual singing, arraigned before the committee of examiners this morning in order to have her adjudged insane. The first question she answered properly, which was this "If you were going away Jane, what would be the first thing you would do?" The ready answer was, "I would telephone for the People's Express and Transfer Co. to check my trunk to New York." They check baggage to all parts of the United States from your residence; besides doing a general express and transfer business. Special care taken in moving furniture, pianos, etc. Call telephone 326, or leave your order at 423 Tenth street, and you will never be examined for insanity.

A Present to Be Appreciated.

A most desirable present to a gentleman on Christmas is a new suit of clothes. It is something which he can use and enjoy to more advantage than anything else. Of course the suit should come from none but a first class tailor, and therefore the attention of the public is called to P. J. O'Connor at 1010 Broadway. His stock of fall and winter goods is the most elaborate in the city and his fashion plates the very latest published. Good suits are made here better than at any other establishment in the city, and O'Connor's prices are the most reasonable to be found either in Oakland or in San Francisco.

It is not the cheapest safe in the market, when compared by size only—it is the cheapest safe when all of its merits are considered. Bear in mind that, ordinarily, the purchase of a safe is for a lifetime, therefore seek the best and avoid one that is offered on its merit of cheapness only.
